Most of the PDF files will need to be printed double sided. The dice sheet can be printed and cut so as to be able to stick the dice images to each of the dice faces for easier play.

If you would like custom engraved dice for the game please PM me using "kingspud" or Joseph Propati and I will give you the information regarding the dice sets.

If you have any questions or find issues with these files please PM me directly so I can resolve any issues immediately.

Thanks for checking out my game and I hope you'll leave feedback regarding your experience so I can make the game better.

Sincerely,

Joseph Propati
